SUMMARY

Software Engineer with hands-on experience building full-stack SaaS applications using Next.js, TypeScript, and Node.js, and implementing Amazon Connect contact center solutions — including contact flows, IVR, queues, routing profiles, Amazon Lex, and Lambda/EventBridge integrations. Comfortable owning a feature end-to-end: frontend, backend, database, and cloud deployment.

TECHNICAL SKILLS

Languages & Frontend: JavaScript, TypeScript, SQL, HTML5, CSS3, React.js, Next.js, Tailwind CSS
Backend & Database: Node.js, Express.js, REST APIs, PostgreSQL, Prisma ORM
AWS & Cloud: AWS Amplify, AWS Lambda, Amazon CloudWatch, IAM
Amazon Connect: Contact Flows, IVR, Queues, Routing Profiles, Quick Connects, Amazon Lex, User Management, Security Profiles, Hours of Operation, Amazon EventBridge
CMS: Payload CMS, WordPress
Tools: Git, GitHub, Postman, Vercel, Cursor AI

PROFESSIONAL EXPERIENCE

AR Group of Education **Mar 2026 – Present**
Full-time • Noida, Uttar Pradesh · On-site

Amazon Connect Engineer (CCaaS & Cloud) **Oct 2026 – Present**
- Design, implement, and manage cloud-based Contact Center as a Service (CCaaS) solutions on Amazon Connect — contact flows, IVR menus, queues, routing profiles, Quick Connects, Hours of Operation, user management, and security profiles.
- Implemented Amazon Connect for the CRM project with Amazon Lex, queue routing, and Lambda/EventBridge integration to automatically log contact-center events into the CRM.

Software Engineer – CCaaS (Amazon Connect) & SaaS Applications **Mar 2026 – Oct 2026**
- Migrated the organization's website from WordPress to Next.js with Payload CMS, cutting page load time significantly and scaling traffic to 50K+ monthly visitors worldwide; configured AWS WAF (bot control + geo rules) to secure the site from bot traffic.
- Designed and built the frontend, backend, and PostgreSQL architecture for internal business applications, including a Sales CRM platform onboarding 20–25 client companies' data with lead management, authentication, and role-based access control.
- Deploy and manage 3 production websites (AR Group of Education, CollegeDunia, AR Residency) on AWS Amplify and Vercel, including environment configuration and release management.
- Fixed website security issues by updating dependencies and hardening authentication; use Cursor AI and prompt engineering to speed up development, debugging, and documentation.

Web Developer **Nov 2025 – Feb 2026**
Inde Artisans • Noida, Uttar Pradesh · On-site
- Developed, maintained, and optimized production websites, ensuring high performance, security, and reliability.
- Handled bug fixing, security improvements, and ongoing maintenance and feature updates across multiple technologies.

E-Commerce Engineer & Website Developer **Sep 2025 – Nov 2025**
Laxmi Remote India Pvt. Ltd. (LRIPL) • Noida, Uttar Pradesh · On-site
- Managed a catalog of 56–77 product listings and maintained pricing/content across Amazon, Flipkart, and Meesho.
- Optimized website UI/UX and on-page SEO; worked with WordPress and front-end technologies.

Website Developer / E-Commerce Account Executive **Nov 2024 – Aug 2025**
eSellacharya • Kanpur, Uttar Pradesh · On-site
- Managed product listings, pricing, and catalog optimization across Amazon, Flipkart, and Meesho.
- Built and maintained the company's WordPress website, including theme customization and plugin integration.

PROJECTS

Sales CRM SaaS Platform with Amazon Connect Integration (salesleadcrm.duckdns.org) **Dec 2025 – Feb 2026**
Tech Stack: React.js, Next.js, TypeScript, Node.js, Express.js, PostgreSQL, Prisma ORM, Amazon Connect, AWS Lambda, EventBridge, CloudWatch, Razorpay
- Self-initiated multi-tenant CRM SaaS for lead management, sales automation, and subscription billing, with RBAC and separate dashboards for Super Admin, Admin, Manager, and Sales Executive.
- Integrated Amazon Connect end-to-end: built a working IVR contact flow, queue routing, Amazon Lex, and 15 agents via bulk CSV import; connected contact events to the CRM through an AWS Lambda + EventBridge pipeline.
- Built REST APIs with Node.js, Express, and Prisma/PostgreSQL, and integrated Razorpay for subscription payments.

Nexiora AI — AI Search & Creator Intelligence Platform (nexiora-ai-api.vercel.app) **Jul 2026 – Present**
Tech Stack: TypeScript, React.js, Next.js, Node.js, REST APIs, Vercel
- Built an AI-powered search and content-intelligence platform that surfaces content ideas and keyword suggestions for creators.

Wokora Foods — Restaurant & Cafe Website (wokorafoods.com) **Sep 2026 – Present**
Tech Stack: React.js, Next.js, TypeScript, Node.js, REST APIs
- Built and launched a responsive restaurant website with Home, Menu, About, and Visit pages and a visual dish-category menu, designed for a fast-food and cafe brand.
- Added user login and a cart so customers can browse the menu and place food orders online.

Pexbit Media — Personal Branding for Founders & Leaders (pexbit-media.vercel.app) **Apr 2026 – May 2026**
Tech Stack: React.js, Next.js, TypeScript, Node.js, REST APIs, Vercel
- Built a brand website from scratch — architecture, UI/UX, and REST API integration — deployed on Vercel with CI/CD.

EDUCATION

BCA, College of Management Studies, Kanpur · CGPA: 8.25 **Sep 2022 – Mar 2025**

CERTIFICATIONS

AWS Knowledge: Amazon Connect Developer — Training Badge (Jul 2026); Microsoft Copilot for Security (Sep 2024); Full Stack Web Development; Java Programming & OOPs with Java — LITS
